multidisciplinary settings to improve choice, access and continuity of care. for childbearing women and their families. This is supported by recent research into women's experiences of maternity care, which identified good communication, support, involving women in their care and being treated with respect, dignity and kindness, as factors which contributed to a positive experience. Midwifery is an evolving profession, so a key part of this course is about developing the skills to adapt to new situations and to become a resilient practitioner to meet the needs of women, babies and families.

The course is divided into theoretical (50%) and practice components (50%). The practice learning and assessments takes place in a range of clinical placements.

The design of the course has been, and will continue to be, determined through the close, collaborative working relationship between the University and the professional bodies. The course is designed to meet the requirements of the Nursing and Midwifery Council (NMC) for the registration of midwives in the United Kingdom. The course is designed to meet the requirements of the NMC for the registration of midwives in the United Kingdom. The course is designed to meet the requirements of the NMC for the registration of midwives in the United Kingdom.

On successful completion of the BSc (Hons) Midwifery students are eligible for registration with the Nursing and Midwifery Council. You must register your qualification with the NMC within five years to practise as a midwife. Failure to do so will mean you need to undertake further education and training to practise in the UK.

This course is delivered in partnership with five local NHS Trusts (6 Hospitals) across the East of England region.

The academic staff delivering this course are drawn from a team that includes teaching specialists and current practitioners. All staff are qualified in their subjects with their own specialist knowledge Y9(r)-6-3.4 (li185 -1ow)7.5 (ow)2.i -1.152of6 8 4 mtsartheilrNu
